

# Empowering building innovation through **attestation**

**First step to ATG**  
for construction  
products and systems

Ensures a **faster**  
**access to**  
**the market**

Confirms **fitness for**  
**use** for most relevant  
performance

Provides a  
**competitive**  
**advantage**

## PROCESS

- 1. Risk analysis** and draw up of an evaluation plan
- Evaluation of **primary risks**
- Draw up of a **Work Plan** for **secondary risks**
- Obtention of the **IIDI attestation**
- Follow up of the Work Plan
- Initiation of the certification under **ATG**

## APPLICATION

**Innovative products** that are not covered by a similar ATG text

## IIDI CONTENT

- Assurance of **product performance**
- Work Plan with objectives to address **secondary risks**

## USE

- Attestation is **valid for 1 year**
- Publication** on UBAtc website

## CONTROL

Main performance and properties related to **innovative character**
